04 Tasks

05 Summary

06 Time for questions

Project Aim

The main objective of the project is **to increase the comfort of research** related specifically to **the transformation towards a green and digital economy**, especially in the mining region.

In its development strategy, SUT assumes that in the area of research, its mission is directed towards innovative solutions that meet the current needs of the economic environment, including the transformation of the mining region.

The project will influence the usefulness and effectiveness of research work by, among other things, disseminating innovative research results internationally, building networks, and raising the level of competence of both doctoral students and employees of WSD PŚ, in terms of consciously building a green and digital economy based on knowledge and digital skills.

Time range

1.10.2024 – 30.06.2026

Support for doctoral students

ACTION 1 . TASK 1 Funding of research costs

Anything that the public procurement law classifies as 'materials'

ACTION 1 . TASK 2 Funding of costs of publishing scientific articles

Doctoral student contribution - financial
breakdown by number of authors

ACTION 1 . TASK 3

Co-financing of participation in scientific conferences

Participation of the doctoral student – conference fee, transport, stay

ACTION 1 . TASK 4

Subsidised participation in internships abroad and at home

Participation of the doctoral student - transport, stay

ACTION 1 . TASK 5

Subsidised participation in training/course

Doctoral student participation - cost of training
